

Benefit featuring tech ed experts, honoring visionary Seymour Papert to be held Dec 4, in Kendall Square, Cambridge

Learning to Change the World© &
Honoring the Legacy of Seymour Papert
December 4, 2013

6 – 9 PM

Cambridge Innovation Center 5th Floor

1 Broadway Street, Cambridge, MA

Small Solutions, Big Ideas (SSBI) and One Planet Education Network (OPEN) will hold a panel discussion, demos, celebration, and fundraiser will be held at the Cambridge Innovation Center December 4th 6-9 PM 5th floor, featuring leading education experts and technology and education: innovators Brian Silverman, Artemis Papert, Gary Stager, Mitch Resnick, Walter Bender, Cynthia Solomon and others.

They'll share their experiences and insights about the latest developments in educational games and other related technology-based learning programs.

The panel discussion will be followed by nibbles, networking and demos of the latest learning software and games by the Small Solutions, Big Ideas and One Planet Education Network.

(Scroll down to view program)

The event will also honor constructivism pioneer and MIT

Professor Seymour Papert for his contributions to education, including his promotion of technology use in classrooms.

The program will benefit OPEN, a leading provider of online multiplayer adventure learning games that engage and inspire kids to develop critical thinking and problem solving skills. OPEN's mission is to transform teaching and learning by combining the power of 3D virtual video games with educationally rich storylines that challenge children and inspire a 24x7 passion for learning.
