

Cambridge Grade School Students to present funds & artwork to Japan Consulate 6-15-11

King School Chinese Immersion Coordinator Vivian Tam explains, "Our schools' global perspectives have brought many innovative learning opportunities to the students. Through our school-wide Mandarin Chinese programs, students are immersed in the languages and cultures of Asian countries. Students have raised funds for the Sichuan Earthquake disaster relief in 2009 and when the earthquake and nuclear exposure happened in Japan, our students decided to reach out."
